

OHS Consultation Refresher

The OHS legislation requires employers to adopt a Risk Management approach to identifying, controlling and eliminating risks to the health and safety of employees and visitors. Employers are also required to establish an OHS consultation mechanism.

IOH has developed this one day training program for OHS committee members and representatives who have completed the WorkCover Committee training course over 2 years ago.

This program provides an opportunity for committee members and representatives to update their knowledge regarding legislative changes and improve their consultation skills.

Course Outline

Workplace Health & Safety

- OHS Legislation review and update of the OHS Act 2000 and OHS Regulation 2001.
- Obligations of employers, employees and others under the legislation.
- Role of WorkCover

The Role of OHS Consultation in the Workplace

- The requirements for consultation under the OHS Regulation 2001.
- Consultation mechanisms - including OHS Representative and OHS Workplace Committees

Effective OHS Consultation in the Workplace

- Identify the characteristics of an effective committee
- Identify factors that inhibit an effective committee
- Develop strategies to overcome these inhibiting factors

Systematic Management of Health & Safety

- The characteristics of effective OHS Management Systems
- The identification and control of hazards in the workplace.
- OHS committee and representative involvement in the OHS Management System
